WHAT IS SINTERED STONE?

Sintered Stone is a new revolutionary surface to the worktop sector. It is manufactured using recent technological advancements and composed entirely of natural minerals. The minerals are transformed into a new material using the process known as "sintering".

Now sintered stone is quickly becoming a hit with designers and homeowners when choosing kitchen or bathroom worktops.

TOP REASONS WHY SINTERED STONE?

Sintered stone is tough as rock and is also:

- >> Waterproof
- >> Stainproof
- >> Scratch resistant
- >> Easy to clean
- >> Food safe and hygienic
- >> Weatherproof
- >> Unaffected by heat
- >> And more...
